Material: Galvanized & Powdercoated 16 gauge Steel

The SteelCycle™ has been maxed out with added accessories. This version of the SteelCycle™ has a lid that hinges and locks into place for easy emptying. Elevate and stabilize the bin with 4 feet levelers that come standard along with a plastic insert. In addition to the added 7 inches of height the Max version comes with a spring loaded flap that automatically closes after disposing of recyclables. These heavy gauge steel recycling bins are an attractive addition to your recycling program.
